If identical materials are not available at the time of service, Manufacturer may substitute materials of comparable quality.

RETAIN YOUR PROOF OF PURCHASE AND THIS WARRANTY: This Limited Warranty shall NOT apply to damages resulting from normal wear and tear and existence of any of the following circumstances shall make the foregoing warranty null and void:

1. If bedding is found to be unsanitary.
2. When product failure is due to causes other than defective workmanship or material.
3. Any queen or king size mattress and/or foundation that is used on a frame or bed rails without a center support rail and having legs touch the floor.
4. If bedding has any damage to the outer fabric of the cover, including wear and tear.
5. If this product is used for commercial purposes, unless specifically designed and built for commercial use.

BED FRAME REQUIREMENTS

- On Queen and King size models, center support that extends to the floor is required.
- Compatible adjustable frames may be used with a mattress that was designed to be used with an adjustable base.
- Solid Platform application may be used however it is required to offer support that extends to the floor.

“SAGGING” VS. BODY IMPRESSIONS

BODY SIGNATURES

Body Signatures are normally occurring as the layers of comfort materials in your new mattress conform to your individual body weight and contours.

SAGGING

Mattress Sag generally occurs only in the center of the mattress.

Various components utilized for the comfort layers will settle and could compress due to the weight and shape of the user. This “settling” or compression is not a structural or design defect, but a normal, expected result. Compression of upholstery materials of 15% or less should be considered as sagging of the mattress. Compression of upholstery layers not covered under the limited warranty. Sagging occurs when the mattress has a depression of 15% or more of the original mattress height. (See example above.) Two people sleeping on a queen or king mattress may notice that the head-to-foot center of the mattress is raised. This is a normal occurrence and indicates that the upholstery layers in the sleeping areas are conforming to each sleeper’s body.

ALL IMPLIED WARRANTIES ON THIS PRODUCT, INCLUDING ANY IMPLIED WARRANTY OR MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, SHALL NOT EXCEED IN DURATION THE TERM OF THIS LIMITED WARRANTY. THE FOREGOING WARRANTY IS IN LIEU OF ALL OTHER WARRANTIES OR CONDITIONS, AND MANUFACTURER MAKES NO ADDITIONAL WARRANTIES OR CONDITIONS, EXPRESS OR IMPLIED, AS TO ANY OF ITS PRODUCTS, INCLUDING ANY WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, WHICH ARE HEREBY EXPRESSLY EXCLUDED AND DISCLAIMED.

The remedies provided herein are exclusive remedies provided under any warranty for this product, express or implied. Manufacturer shall not be liable for any indirect, incidental or consequential damages arising out of the use of this product, and in no event shall Manufacturer’s liability exceed the purchase price of the product.
