# Sync Two Comfort Bases

FOR TXL AND SCK BASES ONLY If you have two bases connected with a sync cable: Disconnect the Wi-Fi and/or Bluetooth module from one of the two control boxes before you begin use.

Only one (1) of the two control boxes joined with a sync cable can be connected to the Wi-Fi and/or Bluetooth module.

**Disconnect Modules
From Control Box**

Download The App
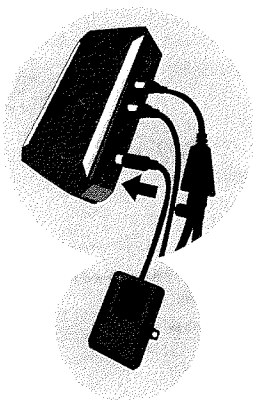

Base
For Bluetooth

Base
For WiFi

Download our app in the Apple or Google Play store.

Open the app & follow the instructions. You will then be able to control your Base from any Apple or Android device!

BLUETOOTH AND WI-FI MODULE SETUP

ComfortBase

For Bluetooth OR Wi-Fi

1 Insert the cord extending from the module into the port marked "MFP" on the control box.

2 Locate one of the two pieces of Velcro near the control box. Firmly press the Velcro side of the module against the Velcro located on the base.

Dual Module Installation: For Bluetooth & Wi-Fi

1 Unplug any modules already installed in the port marked "MFP"

2 Plug Y-Cable into Control Box into the MFP port

3 Plug Bluetooth and Wi-Fi Modules into the ends of the Y-Cable
