

Power Packs

- Liberate your furniture from the wall with the Enouvation universal rechargeable Power Pack.
- Our patented Lithium Ion Power Pack works with all major motors to power your motion furniture.
- Our Power Pack is the most compact, strongest, and efficient motion power pack in the marketplace.
- Operate your power furniture up to 1200 cycles before needing to recharge.
- Simply connect a single compact power pack to all of your motors with our extension cables and Y splitter cables and you will never have to see an exposed cable again.
- You can also control your furniture right from your phone with the Enouvation Bluetooth Receiver.
- An LED display on the Power Pack shows the remaining charge so you know just how much power is left.
- Heavily tested for reliability and safety.
- **EVERY CUSTOMER YOU SELL MOTION TO SHOULD BE ASKED ONE SIMPLE QUESTION...
DO YOU WANT TO MAKE IT CORDLESS?**

Enouvation Battery Training Guide

- Recliners
- Sofas, Loveseats, Console Loveseats
- Sectionals with Two Recliners
- Sectionals with Three Recliners
- Battery Information, Features & Benefits

SINGLE RECLINER

With or Without Power Headrest & Lift Chairs

Option 1: For a recliner without power headrest: One power pack needed.

Power Pack Suggested – (1) E2 or (1) E4

Option 2: For a recliner with power headrest: One power pack needed.

Power Pack Suggested – (1) E4

Option 3: For a recliner with a lift or zero gravity mechanism:

One Power pack needed. Power Pack Suggested – (1) E6

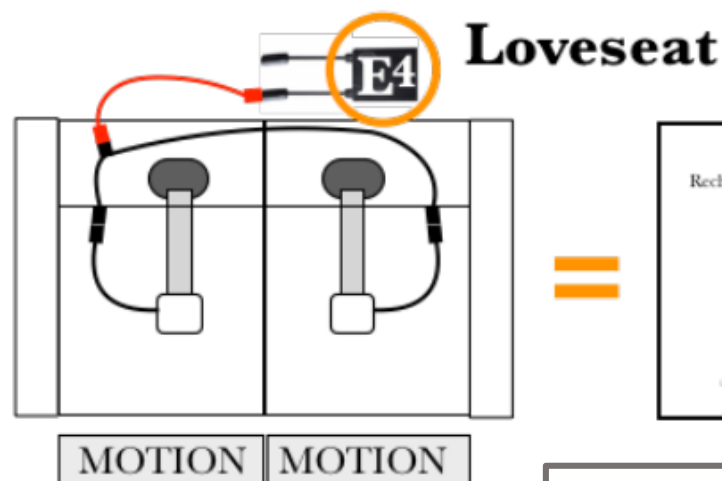

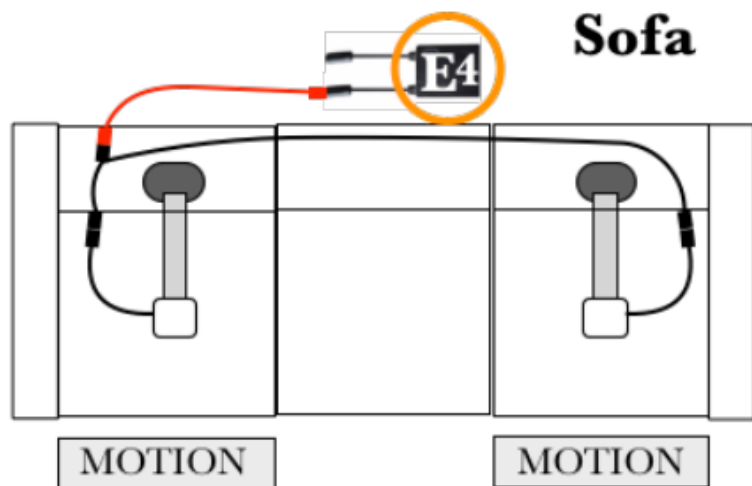

Note: (1) “E” Extension cable is recommended for easy access, flexibility when recharging, avoiding conflicts with mechanism and damaging Power Pack.

TWO RECLINER SOFA, LOVESEAT & CONSOLE LOVESEAT With or Without Power Headrest

Share a Power Pack between two recliners.
Power Pack Suggested – (1) E4 or (1) E6 and (1) Y cable (if needed)

Note: (1) “E” Extension cable is recommended for easy access, flexibility when recharging, avoiding conflicts with mechanism and damaging Power Pack.

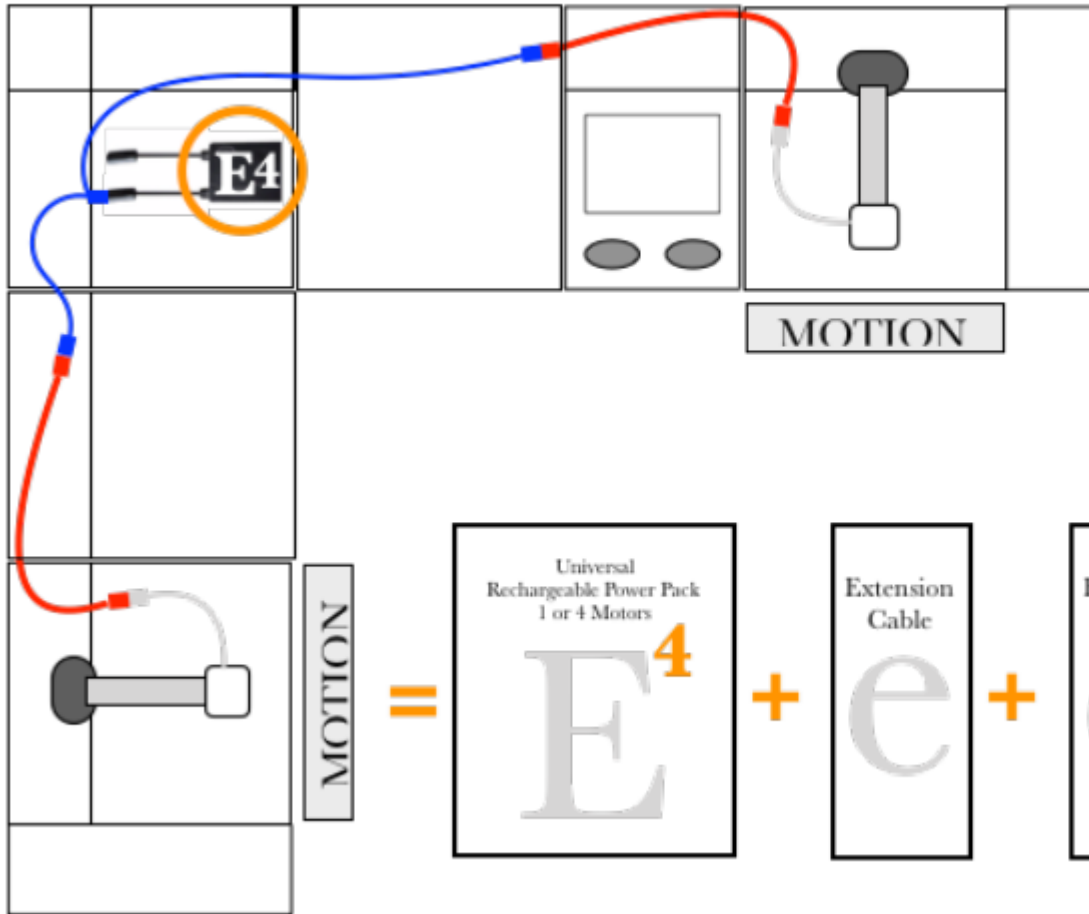

$$= \text{Universal Rechargeable Power Pack 1 or 4 Motors } E^4 + \text{Extension Cable } e + \text{Y Splitter } y$$

You can substitute a larger power pack for any of the examples shown.
E2 to E4 (doubles the power)
E2 to E6 (triples the power)
E4 to E6 (50% more power)

Extension Cable = **RED CABLE**
Y Splitter = **BLUE CABLE**
Power Pack = **ORANGE CIRCLE**

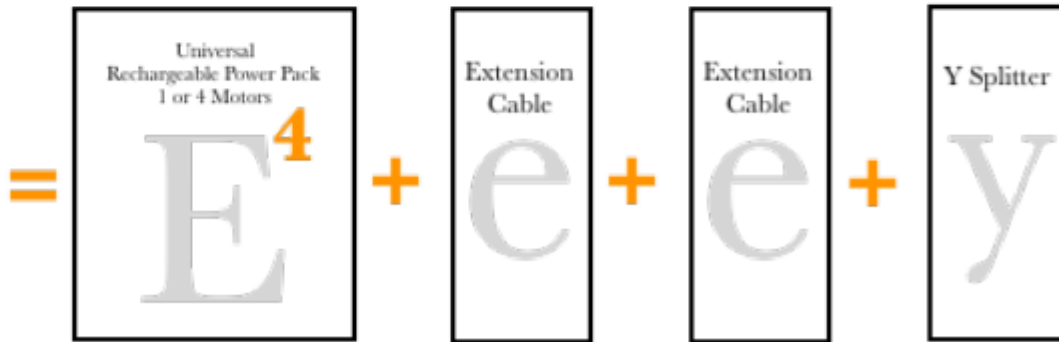

2 Seat Sectional

TWO RECLINER SECTIONAL

Sharing a Power Pack between two recliners. (see diagram)

**Power Pack Suggested –
(1) E4 or (1) E6
(2) E cables & (1) Y cable**

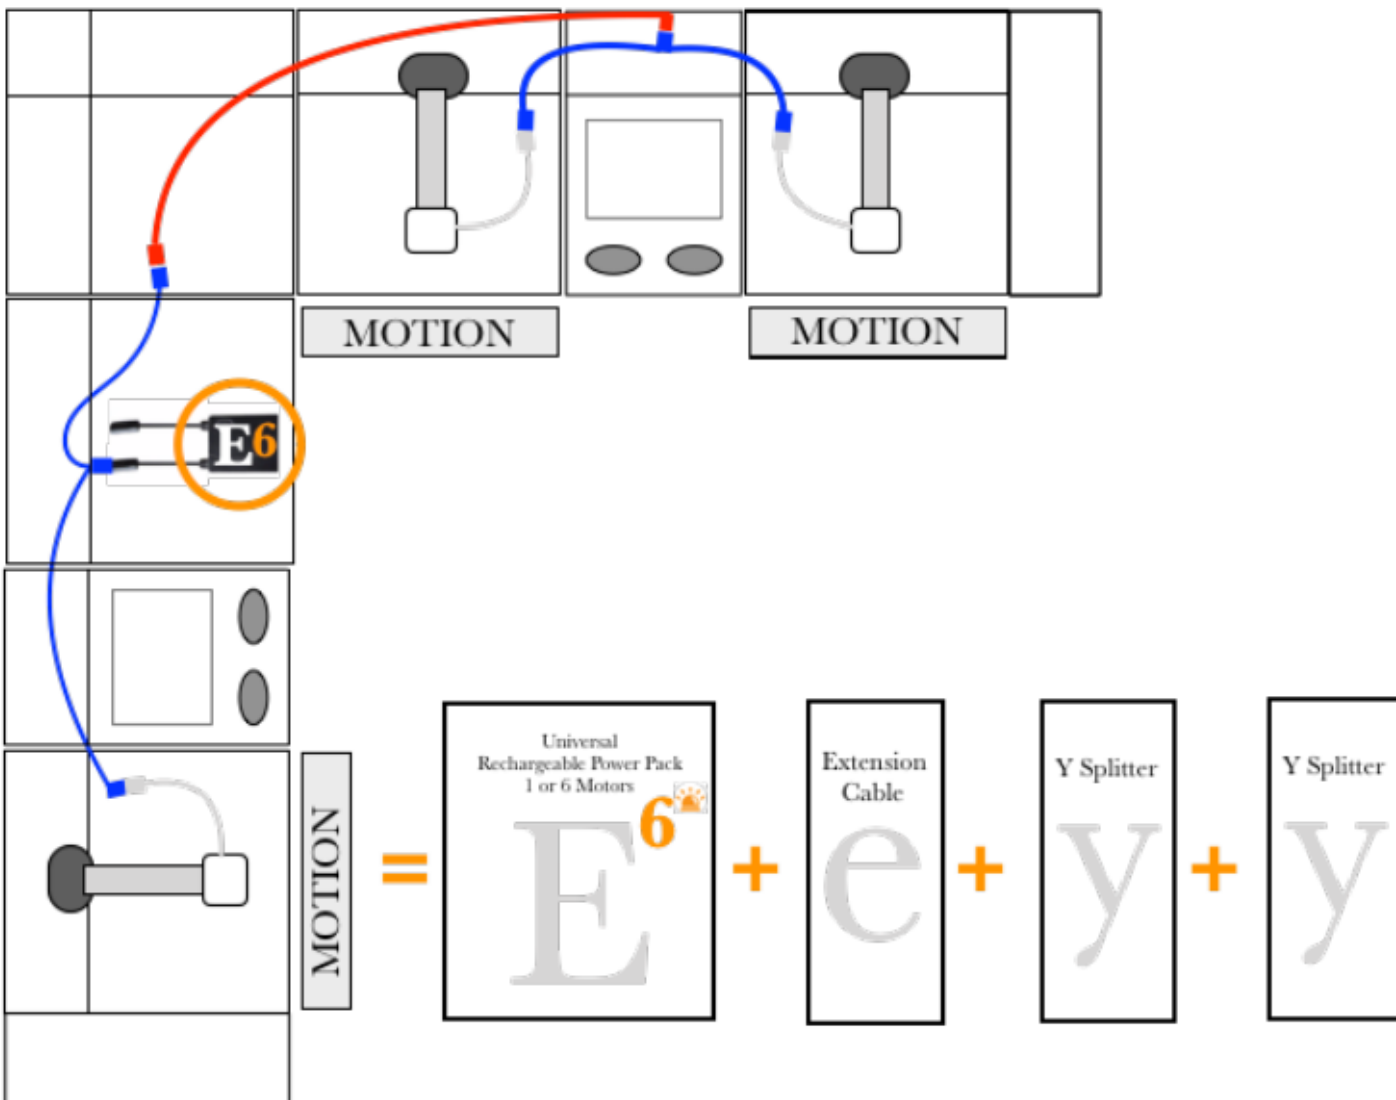

Extension Cable = **RED CABLE**

Y Splitter = **BLUE CABLE**

Power Pack = **ORANGE CIRCLE**

You can substitute a larger power pack for any of the examples shown.
E2 to E4 (doubles the power)
E2 to E6 (triples the power)
E4 to E6 (50% more power)

3 Seat Sectional

THREE RECLINER SECTIONAL

Option 1: Using 2 Power Packs between three recliners.

Power Pack Suggested – (2) E4 and (1) Y cable

The two recliners next to each other share one power pack with a Y cable. The other recliner has its own power pack.

Option 2: Sharing a single Power Pack between three recliners. (see diagram)

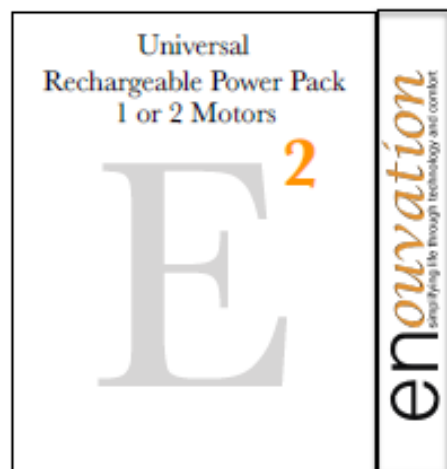

Power Pack Suggested – (1) E6, (2) Y cables & (1) E Extension Cable

Extension Cable = **RED CABLE**

Y Splitter = **BLUE CABLE**

Power Pack = **ORANGE CIRCLE**

You can substitute a larger power pack for any of the examples shown.
E2 to E4 (doubles the power)
E2 to E6 (triples the power)
E4 to E6 (50% more power)

Lithium Ion Polymer Power Pack

Newest Technology in the Marketplace

Used in Smart Home, Medical, Audio/Video, Hi-Tech Industry, Solar Energy Storage and Much Much More...

High Safety Battery Technology

UN38.3 Shippable via Airfreight, US Postal, Fedex, UPS
UL1642 Overall Electronic Safety Function Physical and Mechanical
IEC62133 Tested as external sealed unit
CSE62133 Expanded Overall Safety Testing for Household Use
CSA62133 International Compliancy for Power pack
UL2054 Expanded Safety Test
IEC61960 Cycling and Retention Performance Test

Most efficient Battery in the Marketplace

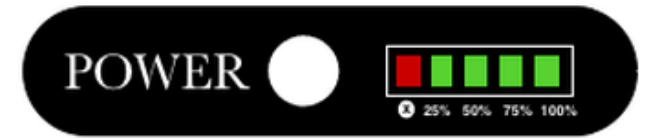

Twice the Power/half the Size

LED Power Indicator

Always know how much you have in the tank

enouvation
simplifying life through technology and comfort

LED Power Indicator

NO MORE GUESSING

Each Power Pack is equipped with a blue or green LED backlit Power Status indicator. Each bar represents 25% of a full charge and will display a solid red light when it's time to recharge.

Power Packs

Features

Flexibility

Universal Power Source
No wall outlets needed
Small compact
“e” and “y” cables

Quality

UL Approved
UN certified
Highest quality material
Patented Technology
LED Display
4.5x's the power in same footprint
Comes with true charger

Safety

Works during power outage
No exposed cords
UL Approved

Benefits

Flexibility

Works with all Major motors
Power your furniture anywhere
Easy to conceal under furniture
Multiple motors run off single power pack

Quality

Tested for QUALITY and Safety
Ship legally via UPS / Fed Ex
Lithium Ion Polymer
Protection against knock offs
Shows power remaining in Power Pack
Recharge less often
Lengthens power pack life

Safety

Furniture still works even if electricity goes out
No fear of damaging exposed cords
Tested for QUALITY and Safety

Bluetooth/WiFi Devices

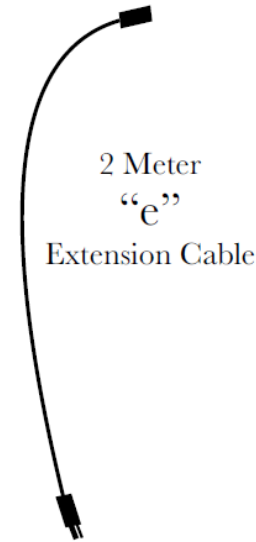

Control Power Motion wirelessly
Simple to use App
Programmable Memory button
Personalize your seat by name
Impress your friends

Multiple users control same motor (WiFi only)

Cell phone or tablet as remote control
Simple set up wizard
Customize your seat position
Name all the seats with power motion
It's just cool!

No pairing needed with WiFi

You may need additional cables
to power multiple motors with one Power Pack
